Watch AL MAR cinematic film

PROFESSIONAL SUMMARY

Senior 3D artist and art director with 14+ years of experience in architectural visualization and team leadership. Project experience spans a Dubai food court, an airport project in Egypt, a resort hotel in Laklouk, Lebanon, and the 12-villa AL MAR development. Guides teams through design refinement and visual production, combining 3ds Max and V-Ray with interior concepts, photorealistic imagery, and AI-assisted cinematic films.

CORE SKILLS

Art Direction | Team Leadership | Large-Scale Project Visualization | Architectural Visualization | Interior and Exterior Rendering | 3D Modeling | Furniture Modeling | Material Development and Texturing | Lighting | Photorealistic Rendering | Interior Concept Design | Furniture and Material Selection | Camera Composition | Design Review | AI Image Generation | AI-Assisted Animation | Compositing | Video Editing

FREELANCE EXPERIENCE

Freelance 3D Artist and Visualizer | 2012-Present

- Delivered 90+ freelance projects across Lebanon, Paris (France), Dubai (UAE), Saudi Arabia, Cyprus, Greece, Malta, Portugal, and Egypt.
- Develop 3D environments, furniture, materials, lighting, and rendered presentations for architecture, interiors, hospitality, commercial spaces, and events.
- Lead project teams and collaborators through concept development, design refinement, and visual production; review composition, colour, materials, and consistency across deliverables.
- Translate project requirements and references into detailed visuals, maintaining architectural proportions and specified design details through revisions.
- Design interior concepts directly in 3ds Max, selecting furniture and materials, and produce cinematic sequences with AI-assisted imagery, animation, and post-production.

SELECTED PROJECT: AL MAR - 12-VILLA DEVELOPMENT

Creative Direction, Interior Concept Design & Visual Production

- Created architectural imagery for a coastal residential development comprising 12 villas, with interior furnishing and material concepts developed in 3ds Max and rendering in V-Ray.
- Enhanced renders and generated additional imagery using GPT, Nano Banana, and Seedream; animated selected images with Kling and Seedance.
- Created project-specific music with Suno and completed the 52-second architectural film through compositing in Adobe After Effects, with video editing and music integration using After Effects and CapCut.

STUDIO EXPERIENCE

Senior 3D Visualizer | Antoine Tabet and Associates | 2018-2025

- Produced 3D visualizations for 170+ residential, commercial, and hospitality projects across Lebanon, GCC countries, and France, including modeling, texturing, lighting, and interior and exterior rendering.
- Collaborated with designers to communicate design intent through architectural presentations, focusing on scale, material accuracy, lighting, and composition.
- Selected projects: Noura Restaurant, La Défense, Paris; Félicie Restaurant, Beirut; Abdel Wahab Restaurant; Allianz SNA.

3D Visualizer | Gatserelia Design | 2015-2017

- Produced interior and exterior visualizations for international residential, restaurant, and hospitality projects, including scene modeling, texturing, lighting, and rendering.
- Prepared presentation sequences in Adobe After Effects. Selected projects: Spine Rooftop Beirut, Kampai, Play Dubai, Oakridge Faqra, Celcius, and Lily’s Café.

Junior 3D Artist | Tweenen Digital Art Studio | 2012-2014

- Created architectural and interior 3D presentations, including modeling and interior and exterior visualization.

LARGE-SCALE PROJECTS & TEAM LEADERSHIP

Selected experience includes a food court in Dubai, an airport project in Egypt, and a resort hotel in Laklouk, Lebanon. Lead project teams on design ideas and visual direction, reviewing work to maintain quality across complex environments. Also reviewed graphic design proposals before submission in a previous studio role.

EVENT & EXHIBITION PROJECTS

Contributed 3D design and visualization to Ana Arabia Expo in Saudi Arabia across five editions held in five different years. Additional event experience includes Kitab events, Cyber events, and fashion show environments.

SOFTWARE & PRODUCTION TOOLS

3D and rendering: Autodesk 3ds Max, V-Ray, Corona Renderer
Post-production and graphics: Adobe After Effects, CapCut, Photoshop, Illustrator
Additional 3D tools: Marvelous Designer, Mudbox
AI imagery and development: GPT, Nano Banana, Seedream, Higgsfield
AI animation and music: Kling, Seedance, Suno

EDUCATION & TRAINING

Interior Design Studies | Sagesse Technical School | 2005-2008
Online 3D Courses | 2010-2012
